Graphic Display Systems.

Marketing Where It Matters.

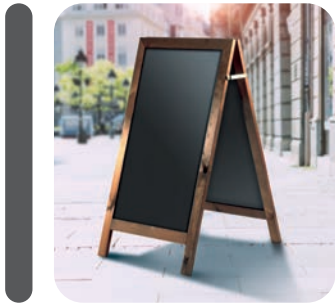

When it comes to driving footfall, there is simply no better place to market your products and services than as your customers are passing your shop or business premises. This is when they are already in a shopping mood, with their credit card primed and ready, and this is when you need to use all the tools at your disposal to entice them in. This is why marketing at store level is so important and why good quality, hardwearing and cost-effective Graphic Display products are indispensable.

From Flags to Forecourt Signs, Lightboxes to Leaflet Holders and Snap Frames to Café Barriers, we have what you need to stand out from the crowd, in any situation.

PAVEMENT & FORECOURT SIGNS

Our high-quality, double-sided Pavement and Forecourt Signs offer robust, exterior, weatherproof display solutions at competitive prices. Manufactured from the highest quality materials, our units will outlast any of the competition.

Most of our Pavement and Forecourt Sign products can be modified to suit your own requirements, including special sizes and paint finishes. Please contact us for more details or to discuss your ideas.

Stormforce 3000

Our Stormforce 3000 marries high quality and robust build to a competitive price point, bringing you the ultimate forecourt sign.

- Simple bolt together assembly
- Water filled base with built in wheels
- 5mm thick steel 'U' bar adds rigidity to the poster frame section
- Heavy duty back panel
- Stainless steel poster clips
- Extra strong snap frame spring clips
- Heavy duty coil springs with cast aluminium mountings
- APET front sheets
- 32mm or 44mm snap frame profile (depending on size)

STANDARD SIZES (h x w)	
A1 - 841mm x 594mm - 32mm snap frame	
A0 - 1189mm x 841mm - 44mm snap frame	
40" x 30" - 1016mm x 762mm - 44mm snap frame	

32mm or 44mm snap frame profiles

Coil springs for wind deflection

Water-filled base with built in wheels

Stormforce Forester

A great quality Forecourt Sign that will gently soften and mature with age, the Stormforce Forester is built to last and utilises our premium steel U-Bar base frame and Coil Springs for strength and wind deflection.

- Timber framed design
- Heavy duty Chalkboard back panel
- Magnetically closing APET front sheets on 'Poster' version
- 5mm thick steel 'U' bar adds rigidity
- Patented 'click' together assembly of top to base – no tools required
- Water filled base with built in wheels
- Heavy duty coil springs with cast aluminium mountings

STANDARD SIZES (h x w)	
A1 - 841mm x 594mm - Chalkboard	
A1 - 841mm x 594mm - Poster	

Sturdy timber frame

Coil springs for wind deflection

Water-filled base with built in wheels

Stormforce Essential

Our Stormforce Essential is a great value, well-built and low-cost Forecourt Sign which uses the same water filled base as our flagship Stormforce 3000. With a 35mm snap frame profile all-round, this is a quality sign at a rock-bottom price!

- Simple bolt together assembly
- Water filled base with built in wheels
- Strong back panel
- Coil springs for wind deflection
- APET front sheets
- 35mm snap frame profile

Eco Panel Sign

This simple but effective panel sign is easy to use and great value for money. The advertising panel is supplied painted white, ready for graphics. Alternatively, we can print it for you.

- Aircraft grade 1.2mm aluminium panel
- Unique patented wedge assembly – no tools required
- Recycled PVC base

STANDARD SIZES (h x w)

763mm x 410mm graphics panel

Bespoke shaped panels available

CHALKBOARD DISPLAYS

Hardwearing and great value for money, our Chalkboard and Timber Framed displays are one of our most versatile ranges. They can be stained in contemporary colours and very easily modified to suit your own requirements, including special sizes and printing. They are very definitely not just for pubs (but they are great for that too). Please contact us for more details or to discuss your ideas.

Traditional Poster A-Board

This sign uses the magnetic closure technology from our market leading Stormforce PRO unit and is extremely robust. Either use chalk pens on the back panel or simply slip a poster in.

- Manufactured from FSC Certified sustainable timber
- 6mm melamine faced MDF chalkboard back panels
- APET front sheets
- Magnetic closure system
- Folding locking stays
- Heavy duty gate hinges

STANDARD SIZES (h x w)

A1 - 841mm x 594mm poster size
A0 - 1189mm x 841mm poster size

Robust construction

Easy to use poster holder

40mm x 40mm frame

Square Framed Chalkboard A-Board

Manufactured using a 40mm x 40mm solid wood frame, double sided and designed to be used in all weather conditions. Available in standard and special finishes.

- FSC Certified sustainable timber
- Folding locking stay
- 6mm exterior grade MDF chalkboard
- 40mm x 40mm timber frame
- Dark oak or antique pine finishes
- Other colours available on request

STANDARD SIZES (h x w)

Small - 800mm x 500mm overall (585mm x 420mm chalkboard)
Medium - 1100mm x 650mm overall (870mm x 570mm chalkboard)
Large - 1400mm x 750mm overall (1170mm x 670mm chalkboard)

40mm x 40mm frame

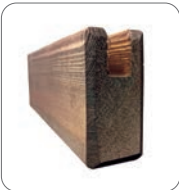

Budget Chalkboard A-Board

Similar to its sibling in style and construction, the Budget Chalkboard A-Board is manufactured from a slightly lighter 20mm x 45mm timber making it a great option for those on a tighter budget and for indoor or temporary use. Double sided.

- FSC Certified sustainable timber
- Folding locking stay
- 6mm exterior grade MDF chalkboard
- 20mm x 45mm timber frame
- Dark oak or antique pine finishes
- Other colours available on request

STANDARD SIZES (h x w)
Small – 800mm x 460mm overall (565mm x 370mm chalkboard)
Medium – 1000mm x 660mm overall (770mm x 570mm chalkboard)

20mm x 45mm frame

Reversible Curved Top Chalkboard A-Board

Manufactured with a solid wood frame, double sided and with reversible chalkboard panels. Available in either dark oak or antique pine finishes.

- Solid wood construction
- Folding locking stays
- 6mm exterior grade MDF chalkboard
- Dark oak or antique pine finishes
- Other colours available on request

STANDARD SIZES (h x w)
Small - 805mm x 500mm overall (585mm x 420mm chalkboard)
Medium - 1100mm x 650mm overall (885mm x 570mm chalkboard)

Reversible slide out chalkboard

40mm x 40mm frame

Framework A-Board

Designed to be used with your own A1 size slide-in POS panels. The A-Board is supplied without these panels, but we can print and supply these as well if required. With a contemporary black finish as standard, these A-Boards are a cost effective and robust advertising tool. Many other colours available on request.

- 40mm x 40mm FSC Certified sustainable timber frame
- Folding locking stays
- 7mm slot for 3mm or 5mm A1 size insert
- Black stained finish
- Other colours available on request

STANDARD SIZES (h x w)
Standard A1 – 1010mm x 650mm overall (for 841mm x 594mm POS panel)

Slide your Foamex POS panel in

Contemporary, clean look

Robust construction

Easel

A great addition to any entrance lobby, our easel looks great displaying printed Foamex or card POS panels, but works equally well with our Framed Chalkboards.

- Solid wood construction
- Dark oak finish
- Retaining chains
- Easel can be locked in the open position
- Other colours available on request
- Use with our Unframed Chalkboard or a printed foamex panel

STANDARD SIZES (h x w)
Easel - 1400mm overall height

Shown with Framed Chalkboard - see p.17

Traditional Timber Poster Case

This simple poster case has a side hinged door and brass latch to keep it shut. A poster can be inserted in the window and there is a chalkboard back panel that can be sign written with liquid chalk pens with your own messaging when a poster is not being used.

- 40mmx 20mm timber frame
- 45mm overall depth
- Tough plastic front window
- Three standard sizes
- Dark oak finish
- Other colours available on request

STANDARD SIZES (h x w)	
A4 - 297mm x 210mm poster size	
A3 - 420mm x 297mm poster size	
A2 - 594mm x 420mm poster size	

Side hinged door and chalkboard back panel

Slide-In Chalkboard Poster Frames

A high quality, solid wood framed chalkboard with a slide-in front sheet to hold a poster.

- Dark oak finish
- Other colours available on request

STANDARD SIZES (h x w)	
A4 - 297mm x 210mm poster size	
A3 - 420mm x 297mm poster size	
A2 - 594mm x 420mm poster size	
A1 - 841mm x 594mm poster size	

Framed / Unframed Chalkboards

High quality chalkboards available with or without frames.

- Dark oak or antique pine finishes
- 6mm exterior grade MDF chalkboard
- Other colours available on request

STANDARD SIZES (h x w)	
A3 - 420mm x 297mm overall	
A2 - 594mm x 420mm overall	
A1 - 841mm x 594mm overall	

Other styles available

Sign-Written Floor Standing Sign

Our timber framed floor standing sign has a traditional look and feel, making it ideal for the hospitality industry. The framed A3 sized chalkboard is sign-written with white applied vinyl lettering. Wording as required – we will layout the artwork for you.

Cyclone Chalkboard Cleaner

Bespoke Wooden Chalkboards

Our range of timber-based Chalkboard products are great for customising as there are hundreds of possibilities and options.

An easy material to work with, timber is very durable, can be used indoors or outdoors and can be stained in lots of different colours. We can help you come up with a solution that really meets your needs.

CUSTOM-BUILT PRODUCTS

Please speak to our team on 01462 672 000 to discuss your needs.

Colours

As well as standard finishes, we can supply more colourful options.

Strong Assembly

Strong screwed together construction.

Folding Stays

Our strong, galvanised folding stays lock in the open position for stability.

Timber Types

Our FSC certified Scandinavian redwood pine has very few knots and grows dead straight, making it ideal for signage applications.

POSTER DISPLAY SYSTEMS

Poster Frames are a staple of the display industry. Ubiquitous in almost all areas of daily life, from retail to offices, high-end fashion to toilet cubicles, you will find Poster Frames everywhere. Our range covers every option you might need, each suited to a slightly different task or location, but all doing a great job of displaying your posters. All of our Poster Frame products can be modified to suit your own requirements, including special sizes and paint finishes. Please contact us for more details or to discuss your ideas.

Tensioned Cable Systems

At Peerless-Assigns we offer a large array of quality parts and fittings, ensuring our tension Cable Systems complement our wide range of poster frames and lightboxes perfectly. Try using our new illuminated versions for extra impact!

All components available separately

Ceiling to Sign
A simple hanging kit, great for directional signage. (Not shown)

Ceiling to Floor Cable Kit
Includes two fixing mounts (one with built in cable tensioner) and 4m of high strength braided stainless steel cable.

Double Sided Panel Grip
Double Panel Grips are designed to be used when you require an acrylic POS holder or display board on both sides of your tensioned cable.

Adjustable Wall Bracket
Simple pivoting joint fits between the wall and the cable anchor supplied in our standard Ceiling to Floor Cable Kit.

Poster Clip
Secures the top opening of the POS holders.

Single Sided Panel Grip
These are used to attach an acrylic POS holder or display board to your tensioned cables.

Standard Acrylic POS Holders

Our standard POS holders are available in four different sizes from stock and allow you to build a modular window display to suit your specific requirements. Also available to order in other sizes or landscape format by request.

- 3mm clear acrylic
- Portrait format as standard
- Other sizes available

STANDARD SIZES (h x w)

A4 - 297mm x 210mm
A3 - 420mm x 297mm
A2 - 594mm x 420mm
A1 - 841mm x 594mm

Illuminated Cable System

Bring a real shine to your window displays with our Illuminated Cable Systems. These easy-to-use displays really make an impact and brighten the outward appearance of your shop or retail space. Perfect for Estate Agents where a window full of these displays creates an irresistible draw to passers-by.

Illuminated Micro Bevelled Acrylic POS Holders

Available in A4 – A1 sizes as standard, and with their slim, space saving clear acrylic border and side mounted cables, these units offer maximum bang for your buck.

- Double sided display
- Eye catching illuminated edge
- Silver pocket detail as standard
- Available in landscape or portrait format
- Powered through the suspending cables
- Available in A4, A3, A2, A1

Illuminated Full Bevelled Acrylic POS Holders

These wider bordered units offer maximum impact for that premium feel. Cables sit behind the panels giving a clean outward presentation. Available in A4 – A1 sizes as standard.

- Double sided display
- Eye catching illuminated edge
- Silver pocket detail as standard
- Available in landscape or portrait format
- Powered through the suspending cables
- Available in A4, A3, A2, A1

LIGHTBOXES

Our industry leading Lightboxes are available in a multitude of styles, from ultra slim Edgelit Lightboxes with Snap Frame front profiles to large format Backlit Lightboxes with tensioned fabric fronts.

Fabric fronted lightboxes have changed the face of retail, allowing very large size lightboxes to be manufactured and supplied in sections for easy on-site assembly, with a single high quality printed fabric graphic fitted in front of either forward facing illumination mounted on the back panel, or side facing illumination fitted in the frame. They are a great way of brightening up your retail space and really create a big impact.

Our Lightboxes use the latest LED technologies and can be manufactured to suit your specific requirements. We can help advise you on which style would suit your project best, from a nationwide roll out of small Edgelit Lightboxes to one truly huge Fabric Fronted Lightbox for a flagship store.

LIGHTBOXES

Fabric Lightbox - Backlit

Can be manufactured in any size and supplied in sections to assemble on site. The wide-angle lens LEDs ensure that the light is completely even with no hot spots or shadows.

BEST FOR: Large feature walls

Fabric Lightbox - Sidelit

Illuminated with high power LEDs from the two longest edges, these lightboxes have no back panel and are supplied in kit form. They can be used free-standing with graphics on both sides or hung on a wall. Can be manufactured in long lengths but no more than 3m between the illuminated sides.

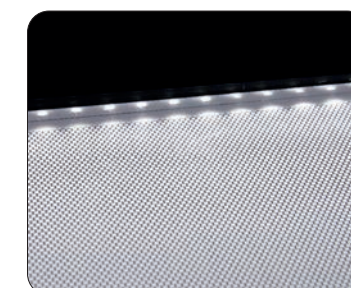

BEST FOR: Double-sided free-standing displays

Edgelit Snap Frame Lightbox

Only 25mm deep, these lightboxes are available off-the-shelf in standard sizes but can also be manufactured to suit your requirements. Can be manufactured in large or small sizes and are designed to be used with a Duratran type print.

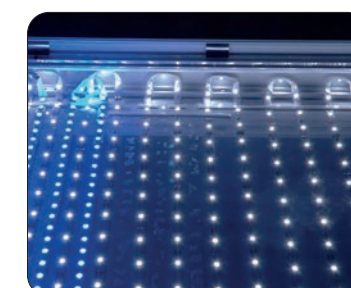

BEST FOR: Premium retail installations and are great as a substitute for a digital screen

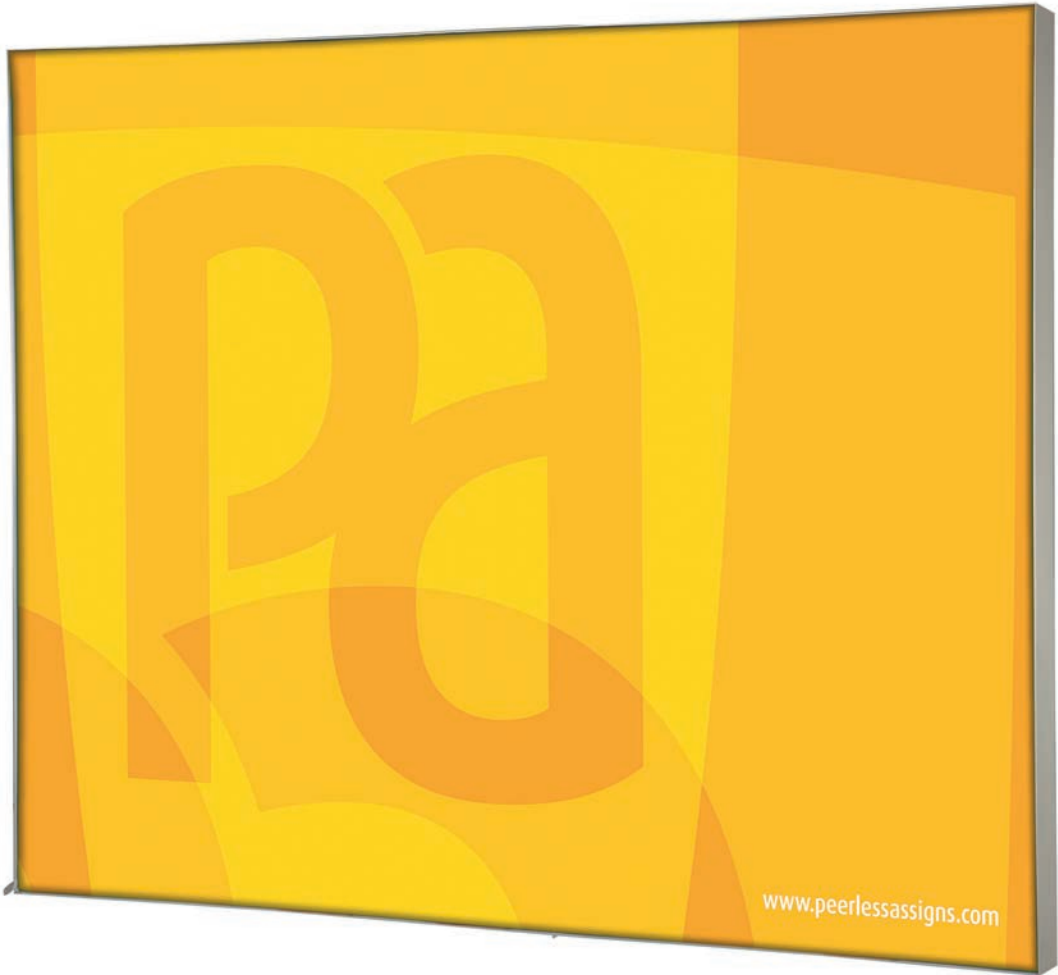

Backlit Standard Lightbox

Very versatile lightboxes with several different options of case depth and snap frame profiles available. These lightboxes are made to order and can also be supplied with waterproof LEDs and drivers and fitted with a hinged locking door making them great for outdoor use.

GREAT FOR: Cinemas and retail outlets with constantly changing marketing messages

Fabric Fronted Lightboxes

Fabric Fronted Backlit LED Lightbox

With its tensioned fabric graphics, the Fabric Front LED Lightbox is ideal for illuminated display requirements of almost any size. It has excellent even light dispersal and can be supplied with or without the printed fabric front. These lightboxes can be supplied in sections, making transportation to site easy, even for really large sizes.

- 65mm deep extruded aluminium casing
- Wide-angle LED illumination
- Composite back panel
- Low energy usage
- Internal use only

These lightboxes are made to order with no minimum order requirements

Backlit – 65mm Deep Case

Our wide beam-angle backlit technology gives an exceptionally bright and even spread of light. Can be supplied in sections to keep carriage costs down.

Fabric Fronted Sidelit LED Lightbox

Illuminated from the inside on the long edges, and with the ability to add a graphic to both sides, these lightboxes are perfect for free standing applications such as exhibitions and mid-floor areas. However, they can also be wall hung if preferred. Supplied in kit form, and with no back panel needed, these lightboxes are exceptionally easy to transport and install, with all electrical components pre-wired and fitted.

- 125mm deep extruded aluminium casing
- High Power LED illumination
- Double-sided and free-standing if required
- Great for exhibitions
- Internal use only

Sidelit – 125mm deep case

With powerful LEDs mounted around the inside perimeter of the frame, the Sidelit Lightbox allows for very large lightboxes to be constructed inexpensively and with low running costs.

These lightboxes are made to order with no minimum order requirements

Poster Lightboxes

Edgelit LED Lightbox

Our best-selling lightbox, this product uses powerful LEDs to illuminate a laser etched acrylic panel to give bright, balanced illumination, even in very large sizes. These lightboxes can be supplied in custom sizes, colours and finishes to suit your requirements.

- 25mm/32mm snap frame poster holder
- 25mm overall depth
- Low voltage LED illumination
- Internal use only

STANDARD SIZES (h x w)	PROFILE
A3 - 420mm x 297mm	25mm
A2 - 594mm x 420mm	25mm
A1 - 841mm x 594mm	25mm
A0 - 1189mm x 841mm	32mm

Slim 25mm depth Laser-etched panel Snap frame front

Lockable Outdoor Edgelit LED Lightbox

A tough outdoor (IP56 certified) lightbox with edgelit LED illuminated light panel. A very robust unit that is built to last.

- 63mm wide aluminium front frame profile
- 4mm toughened glass front window
- 58mm overall depth
- Top hinged door (with gas strut hinges on A0 size)
- Key locks

STANDARD SIZES (h x w)
A2 - 594mm x 420mm
A1 - 841mm x 594mm

BARRIERS,
BANNERS,
FLAGS &
EXHIBITION

Our high-quality Café Barriers, Flags, Banners and Exhibition Stands have been designed to meet your ever changing portable display needs. Our units are robust and easy to assemble and can be supplied either with or without printed banners.

Stainless Steel Café Barriers

Supplied in a high quality polished stainless steel, and with a heavy weighted base, these Café Barriers are an excellent solution to crowd management and for organising indoor or outdoor seating areas. The banner is supported by a pair of cross rails in a matching finish, with the top rail connecting directly to the posts and the lower rail connected with tensioning springs.

- Extra strong post and base
- Concrete weighted base with matching cover
- Supplied flat packed – simple bolt together assembly
- Cross rails available in 3 sizes (1000mm, 1500mm and 2000mm)
- Supplied with or without banners, printed one side or both

DIMENSIONS
Pole – 990mm high
Base – 360mm diameter

STANDARD BANNER SIZES (w x h)
860mm x 790mm (1000mm rails)
1360mm x 790mm (1500mm rails)
1860mm x 790mm (2000mm rails)

Spring clip ends secure the rails to the poles to keep the banner taut

Black Powder Coated Café Barriers

Also available in a high-quality black powder coated steel finish, and with the same specification as the stainless steel version, the black finish offers a more subtle look that works well in urban areas. For a contrasting look, try the black posts with the stainless cross rails.

- Extra strong post and base
- Concrete weighted base with matching cover
- Supplied flat packed – simple bolt together assembly
- Cross rails available in 3 sizes (1000mm, 1500mm and 2000mm)
- Supplied with or without banners, printed one side or both

DIMENSIONS
Pole – 990mm high
Base – 360mm diameter

STANDARD BANNER SIZES (w x h)
860mm x 790mm (1000mm rails)
1360mm x 790mm (1500mm rails)
1860mm x 790mm (2000mm rails)

Spring clip ends secure the rails to the poles to keep the banner taut

Tensator® Queue Management Systems

We are proud to announce that Peerless-Assigns are now an authorised Channel Partner for Tensator® products. The Tensabarrier® system is trusted by the world's leading transport hubs and retailers, and we are now able to offer these industry leading queue management systems at very competitive prices.

Advance Post Belt Unit

The backbone of the Queue Management System range, the Advance Post is available in three great finishes and is manufactured from high quality steel with a heavy cast iron base for stability.

- Belt braking system reduces accident risk
- Optimum belt height
- Modular webbing cassette
- Four-point anti-tamper connectivity
- Many stock webbing options (colours and patterns)
- Weight: 10kg
- Available in Brushed Stainless, Polished Chrome or Powder Coated Black finishes

STANDARD SIZES

Overall assembled height - 972mm
Base diameter - 343mm
2.3m or 3.65m long webbing belt (50mm wide)

Polished Chrome Brushed Stainless Powder Coated Black

Heavy Duty Wall Mounted Belt Unit

The perfect solution when you want a permanent and durable retractable barrier without taking up any floor space. Its powder coated steel wall mount make this the ideal solution for warehouses and factories as well as high-traffic retail spaces.

Midi Wall Mounted Belt Unit

Fitted as standard with a 4.6m retractable webbing belt, the Midi Wall Mounted Belt Unit is ideal for applications requiring a longer barrier. Its specially designed plastic top and bottom casing is also available in several different colour and finish options.

Post Top POS Holders

Great for adding your brand messages or simple directional instructions to your queuing system, these robust POS Holders are simple to fit, easy to use and hardwearing. No tools required. Available in A4 and A3 sizes, in either landscape or portrait format.

Sphere-Top Rope Post

Manufactured from high quality materials, and available in two eye-catching luxury finishes; polished brass or polished chrome, our Post and Rope system is great for providing stylish & versatile solutions to queue management at venues such as art galleries, hotels, cinemas, casinos, retail outlets and night clubs.

- Available in Polished Brass or Polished Chrome as standard
- Forged universal four-way loop
- Heavy cast iron weighted base for stability

MODIFIED & CUSTOM-BUILT PRODUCTS

Sometimes a standard product just won't do, and this is where we really come in to our own. Our mission has always been to design, manufacture and supply high quality and innovative point-of-sale display solutions and our Custom-Built service means you can get your hands on whatever you need.

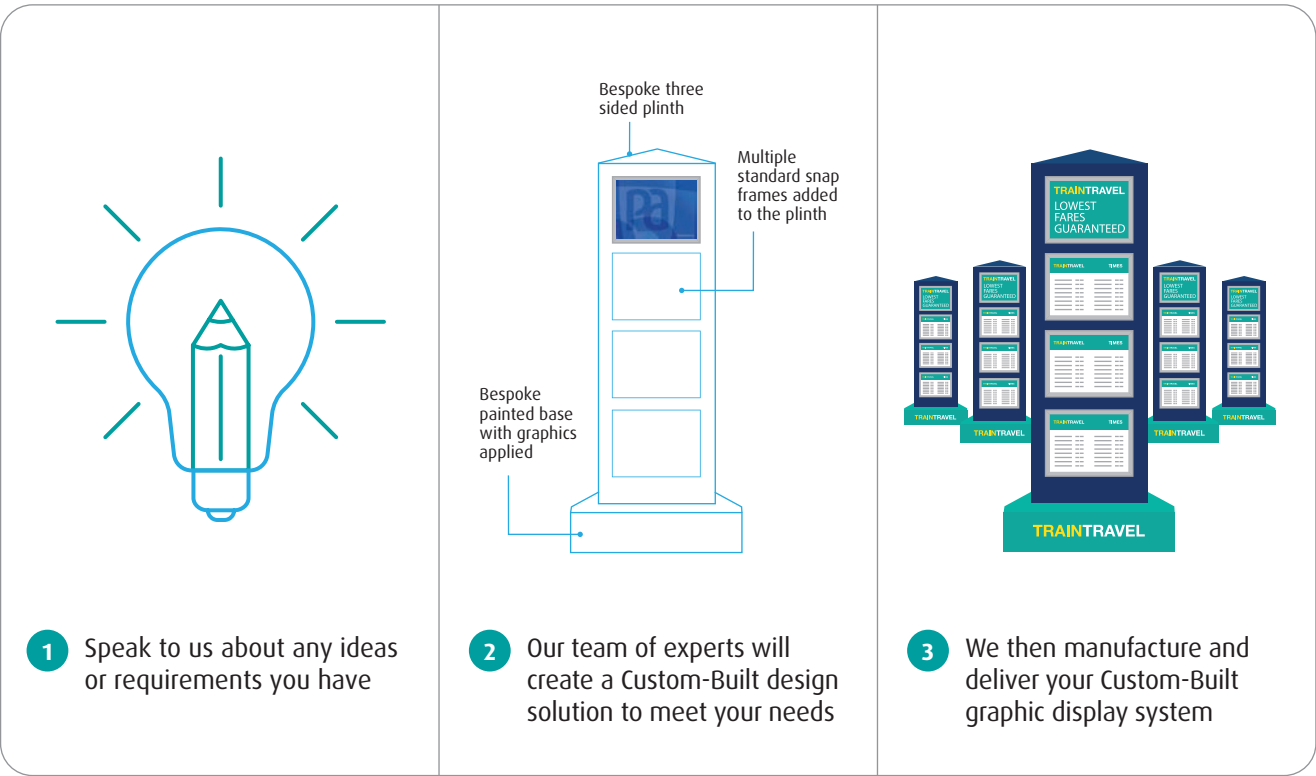

Sometimes the perfect solution starts with a simple requirement that cannot be fulfilled by a standard product, such as an awkward space or location, a certain aesthetic, a specialist material specification. It might need to tie in with your brand, or the look and feel of a new store re-fit. It might be required to support a product and a POS message, or even just a product. Whatever the driver, we are here to help.

The Modified Process

The Custom-Built Process

How to order.

Once you've found the products you're after, get in touch with our friendly team and we'll be happy to complete your purchase. You can contact us on the phone, send us an email or simply order online yourself through the Peerless-Assigns website.

If you want to discuss your project in more detail, one of our expert team can help you define a brief that allows us to find the right solution to your needs, either over the phone or face to face (we love meeting new people!).
